DESCRIPTION:

The current trend of making laptops thinner now means that many of the connectivity options you are used to seeing have been replaced by a single USB Type C socket. Simply attached this unit to the USB Type C connector on the laptop and you will gain a USB 3.0 Type A female socket, a VGA socket and a USB Type C connector. Please note: The WPD port supports PD2.0, if your device or charger uses a different protocol the charging current will drop to 500mAH or less.

SPECIFICATIONS:

Supports BC1.2, The Power OS USB Type A port can be up to 7.5w (5v/1.5a)

Supports per lane data rates of 5.4Gbps (HBR2), 2.7Gbps (HBR) AND 1.62Gbps (RBR)
