- Power Delivery Function
- Supports USB Type C Input and DVI, USB 3.0 and RJ45 Output
- Supports BC1.2, Power of USB A Port can be up to 7.5w (5v/1.5a)
- 15cm Lead

DESCRIPTION:

The current trend of making laptops thinner now means that many of the connectivity options you are used to seeing have been replaced by a single USB Type C socket. Simply attached this unit to the USB Type C connector on the laptop and you will gain a USB 3.0 Type A female socket, a DVI socket, a Gigabit RJ45 (10/100/1000) socket and a USB Type C connector. Please note: The WPD port supports PD2.0, if your device or charger uses a different protocol the charging current will drop to 500mAH or less.

SPECIFICATIONS:

USB 3.0 Port supports to charge and transmit data for the USB device simultaneously
Supports USB 3.0 Super Speed
Supports DVI Video resolution up to 1080p@60Hz
Supports 10/100/1000Mbps bandwidth
