

FEATURES:

- USB 3.1c Male – SVGA, USB 3.1c and USB 3.0 Adaptor
- Individually Bagged
- White TPE Cable
- Easy to Use and Carry
- 20cm Lead

DESCRIPTION:

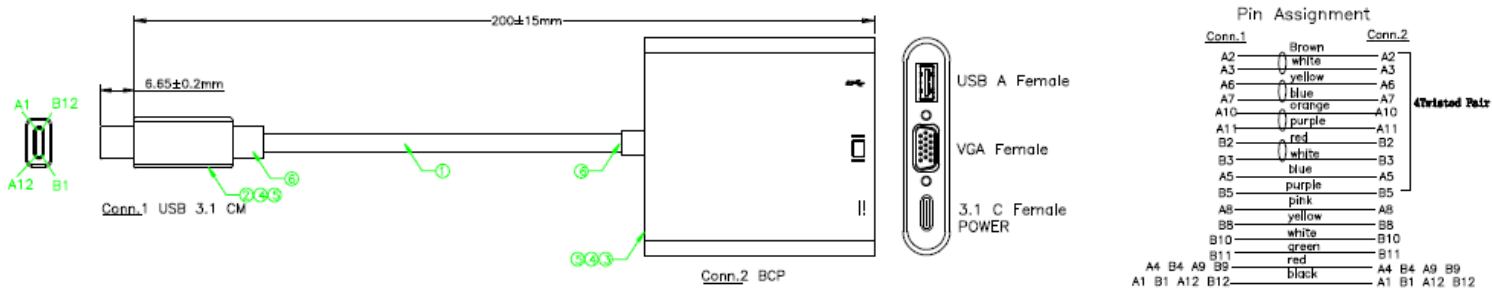

The current trend of making laptops thinner now means that many of the connectivity options you are used to seeing have been replaced by a single USB Type C socket. Simply attach this unit to the USB Type C connector on the laptop and you will gain a USB 3.0 Type A female socket, a VGA socket and a USB Type C connector. Please note: The WPD port supports PD2.0, if your device or charger uses a different protocol the charging current will drop to 500mA or less.

SPECIFICATIONS

Connector – Nickel Plated Shell with Black Insulation

Jacket – White TPE, OD: 4.5±0.2mm
