

FEATURES:

- USB 3.1c Male – RJ45 Female Adaptor
- Individually Bagged
- Black PVC Cable
- Fully Moulded
- 20cm Lead

DESCRIPTION:

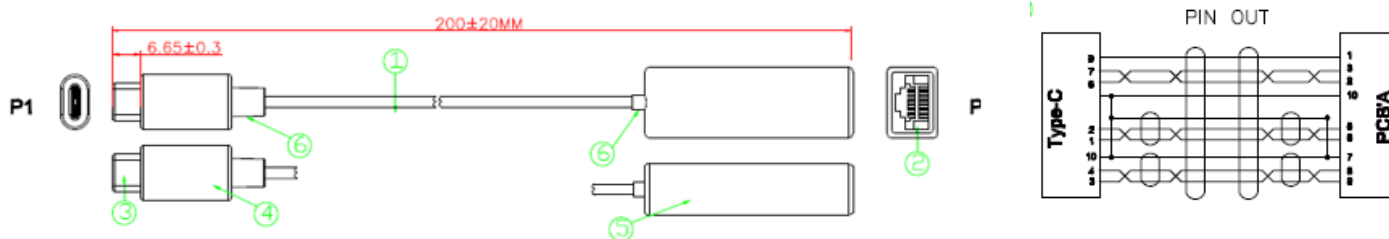

The current trend of making laptops thinner now means that many of the connectivity options you are used to seeing have been replaced by a single USB Type C socket. Simply attach this unit to the USB Type C connector on the laptop and you will gain a Gigabit RJ45 (10/100/1000) socket. You will then just need to connect to a network using the appropriate cable.

SPECIFICATIONS:

Connector – Nickel plated shell with Black Insulation

Jacket – Black PVC, OD: 3.8±0.2mm
