

DisplayPort 1.4 Cable

8K ULTRA HD

7680 x 4320

Features

- DisplayPort 1.4 Male-Male
- Supports up to 8K Video Resolution
- 32Gbps Bandwidth
- Individually bagged
- Fully Moulded

4K ULTRA HD

3840 x 2160

FULL HD

1920 x 1080

DESCRIPTION:

Our DisplayPort 1.4 cable is an indispensable companion for the latest computers and monitors equipped with DisplayPort connections. Extend your desktop to a second monitor for an expanded workstation. These cables are compatible with the latest 8K and 5K monitors.

The combination of gold-plated connectors, bare copper conductors and a foil & braid shielding provides superior cable performance, exceptional picture quality and authentic sound.

SPECIFICATIONS:

DisplayPort 1.4, 1.3 and 1.2 compatible

Depress the button on the DisplayPort connectors to release the latch and avoid damage when unplugging

8K – 7680x4320 @ 60Hz, 10-bit colour, RGB 4:4:4, HDR,DSC

4K – 3840x2160 @ 120Hz, 10-bit colour, RGB 4:4:4, HDR

2K – 2560x1440 @ 60HZ, 120Hz, 144Hz, 165Hz

HD – 1920x1080 @ 60Hz, 120Hz, 144Hz, 165Hz

TECHNICAL INFORMATION:

- **DisplayPort Cable** 1.4 features support for high-bandwidth HBR3, 32.4Gbps bandwidth, DSC 1.2 display stream compression, FEC forward error correction and 32 audio channels. The DisplayPort to DisplayPort cable is the perfect companion for Nvidia RTX 3070/RTX 3080/RTX 3090 and AMD Radeon RX 6800/6900 graphic cards 00/6900
- **Video Resolution** supports up to 8K (7680x4320) including 5K (5120x2880 @ 60Hz), 4K Ultra HD (3840x2160 @ 60Hz) and 1080P (Full HD) with the premium display cable. The DisplayPort to DisplayPort cable supports flawless audio pass-thru for uncompressed digital 7.1, 5.1 or 2 channels
- **Gaming Monitor** companion DisplayPort cables connect your GTX video graphics card to a 165Hz gaming monitor. The 4K DisplayPort cable utilizes all the features of your graphics card and monitors such as the ROG Swift PG2790 / PG3480 / PG2580 gaming display, Samsung LC49HG90DMNXZA, Samsung C27HG70, Acer Predator XB271HU, Dell Ultra 4K P2715Q, BenQ Zowie and MSI Full HD Non-Glare
- **MST Multi-Stream** Technology supports for a multi-monitor configuration with the DisplayPort 1.4 cable. Its backwards compatible with DisplayPort 1.2 cable and USB-C to DisplayPort adaptor for laptops with USB-C or Thunderbolt 3
- **Superior Construction** of the DisplayPort 144Hz capable cable combines gold-plated connectors, bare copper conductors and a foil & braid shielding to provide both superior cable performance and reliable connectivity. DisplayPort cables connector with a latch provides a secure connection with a release that must be depressed before unplugging.
