FEATURES:

• USB Type A Male – USB B Male

• Plug & Play, no additional drivers required

• USB Bus powered

• Available in 10m, 15m and 20m

• USB 2.0 Compliant

DESCRIPTION:

These fully moulded, high-quality USB 2.0 cables support a maximum speed of 480Mbps, this cable is typically used to connect computers to peripherals such as printers. The Active Repeater in this cable boosts the USB signal allowing the connection of a printer up to 20m from a computer to a host device.
