Product Features

- This cable is Ultra high-speed, guaranteeing superior performance and reliability.
- Supports speeds of 8K @ 60Hz and 4K @ 120Hz, allowing users both high definition video and multi-channel audio connection between HD displays and HDMI switch devices
- Braided Design: The cable features a premium braided design that enhances its durability and flexibility, making it ideal for everyday use and reducing the risk of damage.

Product Description

These Ultra High-Speed Braided 2.1 HDMI cables offers support resolutions of up to 8K @ 60Hz (7680 x 4320) and 4K @ 120Hz (3840 x 2160). They come with the latest HDMI standard of 2.1 which supports bandwidth up to 48Gbps.

They are backwards compatible with all preceding HDMI standards.

HDMI technology is the global standard for connecting high-definition equipment. HDMI is the intelligent, all digital interface used by most of the worlds largest consumer electronics, PC and mobile device manufactures. HDMI is backwards compatible with DVI, so you can use a converter/adaptor to view video on a DVI device.
