USB-C 3.2 Gen1 + USB-A 2 in 1 to RJ45 Shielded 1G Ethernet Braided Cable 40-404*

- USB-C 3.2 Gen1/USB-A to RJ45 Ethernet
- High-Speed 1Gbps Shielded Cable
- Cat6 Standard
- Braided Design - This cable features a premium braided design that enhances its durability and flexibility.
- Currently Available In 3m & 5m Lengths

Product Features

- This cable is high-speed, guaranteeing great performance and reliability.
- Unique 2-in-1 design providing instant access to high-speed wired ethernet.
- Braided Design: The cable features a premium braided design that enhances its durability and flexibility, making it ideal for everyday use and reducing the risk of damage.

Product Description

This innovative 2-in-1 USB-C/USB-A to RJ45 ethernet cable greatly simplifies network connectivity for devices with only a USB-C to USB-A port but no conventional ethernet port.

No more clumsy adaptors are required; with just one single cable, your devices will instantly have access to high-speed wired ethernet.

With its sophisticated smart chip built-in, this cable will provide you with stable and secure wired internet up to 1Gbps high-speed for your devices without their own RJ45 port.

This unique 2-in-1 USB-C + USB-A design makes this cable work for many popular devices
