DESCRIPTION

Take advantage of the new Thunderbolt 4 connector with this all-in-one Thunderbolt 4 cable and USB4 cable supporting both cable standards.

Future proof your setup by replacing your old Thunderbolt 3 cables with new Thunderbolt 4 cables that fully supports the latest features. Thunderbolt 4 is fully backwards compatible with Thunderbolt 3 cable standards, Thunderbolt 3 devices and hosts.

Our future-proofed Thunderbolt 4 cable also functions as a USB4 cable, supporting the latest USB4 standards. Connect USB4 devices and transfer up to 40Gbps of data depending on the host and device USB4 supports. Thunderbolt 4 is also fully backwards compatible with USB-C 3.2, 3.1 and 2.0 speeds and devices and supports USB-C features such as DisplayPort Alt Mode (DP Alt Mode) and USB Power Delivery (USB-PD). Power and charge devices with Power Delivery (PD) charging support.

Thunderbolt 4 cable delivers enough bandwidth to drive one 8K display or two 4K displays, connect the latest high-definition monitors and TVs for vibrant, crystal-clear 8K video and authentic high-quality audio.
