

- USB-IF Certified Cable - Assures users of optimal compatibility with a wide range of devices
- USB4 Gen3 40Gbps - Transfer large files, stream high definition content or syncing your devices with transfer speeds of up to 40Gbps
- 8K Video Output - Unlock the potential of your high-resolution displays with support for 8k video output
- 240w Power Delivery (PD) - Charge your devices at blazing speeds with support from an impressive 240w Power Delivery (PD) capability

Product Features

- This cable is USB-IF certified, guaranteeing compliance with industry standards for superior performance and reliability. USB-IF certification assures users of optimal compatibility with a wide range of devices.
- USB4 Gen3 40Gbps: Harness the power of USB4 Gen3 technology with data-transfer speeds up to 40Gbps. Whether transferring large files, streaming high-definition content, or syncing your devices, this cable ensures swift and efficient data transmissions
- 240w Power Delivery (PD): Charge your devices at blazing speeds with support from an impressive 240w Power Delivery capability. Its a powerhouse for charging your laptops, tablets and other power-hungry devices, ensuring they stayed powered up and ready to go
- 8k Video Output: Unlock the potential of your high-resolution displays with support for 8k video output, making this cable ideal for professionals working with graphics-intensive applications, video editing and content creation.

Product Description

Experience high-speed data transfer with our USB-IF Certified USB4 Gen3 40Gbps 8k EXPR 240w PD USB-C Cable. This premium cable has been engineered and designed to support lightning-fast data transfer, high-resolution video output and powerful charging capabilities.

This cable is compatible with a wide range of USB-C devices, including laptops, smartphones, tablets, external hard drives and more, ensuring seamless connectivity across various devices. Its high performance makes it an essential accessory for individuals who demand the best performance

Upgrade your connectivity experience with the USB-IF certified USB4 Gen3 40Gbps 8k ExPR 240w PD USB-C Cable. Whether you're a creative professional, a tech enthusiast, or a business user this cable provides the speed, versatility and reliability you need for a seamless data transfer, high-quality video output, and efficient device charging. Invest in the future of connectivity with this state-of-the-art USB4 cable
