

### FEATURES

- Cat6 UTP Patch Panel
- Loaded Patch Panel
- 24 Port
- 1u Chassis
- Rear Cable Management Bar
- Compatible with both Krone Style & 110 Punch Down Tool

### DESCRIPTION

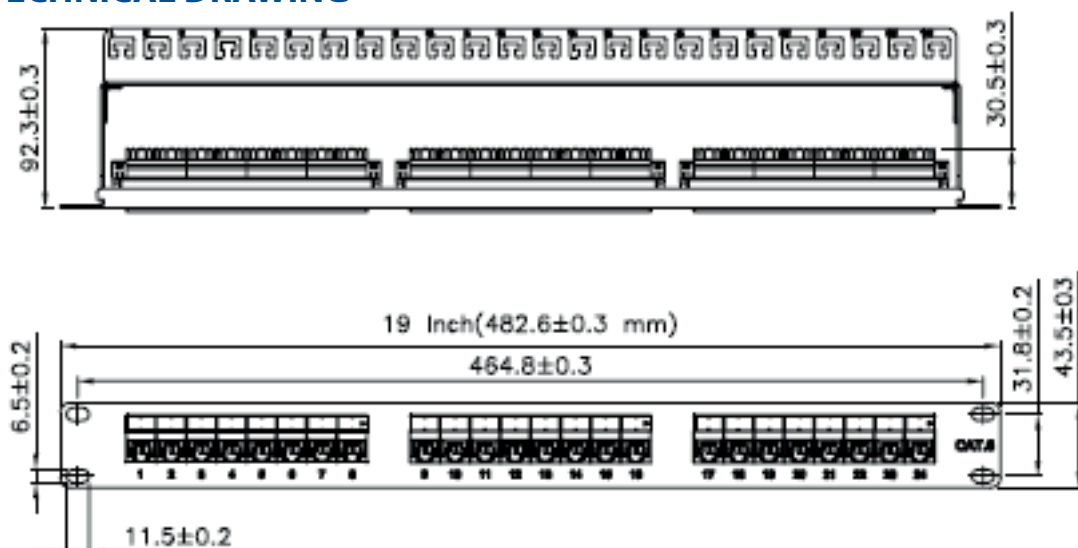

The Cat6 UTP 1u 24 Port Patch Panel offers Cat6 compliant performance and supports high speed protocols up to 1G Ethernet.

The panel is backwards compatible to all preceding cabling categories, ensuring support of all IP applications designed to run over them.

The vertically mounted PCB provides easy termination using a Krone style or 110 punch down tool and there are colour coded labels for both 568A and 568B wiring configurations. The panel has individually numbered ports and a port labeling facility.

The rear cable management bar can be easily removed and fitted without the need for tools, thus providing improved access to terminations.
