

- OM4 LC - LC LSOH Fibre Lead
- 1 Bag of 10 Fibre Patch Leads - Less Plastic Packaging Used
- Strain Relief Boot
- 50/125 Multimode
- Duplex Erika Violet
- LSOH Cable Jacket - IEC 60332-1

Product Features

- IEC 60332-1 LSOH Erika Violet Cable
- Insertion Loss - ≤ 0.5 dB
- Return Loss - ≥ 20 dB
- Test Wavelength - 850nm

Product Description

Our LC - LC OM4 multimode fibre optic patch leads are typically used in 10, 40 and 100Gb/s applications, where high bandwidth requirements and transmission distances have shown a need for a higher performing multimode system. OM4 multimode fibre patch leads are backwards compatible with OM3.

All assemblies are fully tested during manufacturing and are supplied with test results. OM4 multimode patch leads are supplied with a strain relief boot and a 3.00mm erika violet LSOH cable jacket as standard.

Non-stocked configurations (length, colour, connectors and cable type) can be manufactured to meet specific requirements - please contact our sales team for more information.
