

- OM4 50/125 LC - SC Minizip Fibre Lead
- Duplex Aqua
- Strain Relief Boot
- 1.8mm IEC 60332-1-2 LSOH Cable Jacket
- Individually Bagged
- Only Available in 8 Different Lengths

Product Features

- IEC 60332-1-2 LSOH 1.8mm Aqua Cable
- Insertion Loss - <0.5dB
- Return Loss - >20dB
- Test Wavelength - 850um
- Non-stocked configurations (length, colour, connectors and cable type) can be manufactured to meet specific requirements - please contact our sales team for more information.

Product Description

Our LC - SC OM4 multimode fibre optic patch leads are used in particularly in 10Gb/s, 40Gb/s and 100Gb/s applications, where the high bandwidth requirements and transmission distances have shown a need for higher performing multimode system.

The 1.8mm Minizip sheath is a 40% reduction in size from our standard 3.0mm fibre patch leads, which is particularly useful in high density patching scenarios and where cable management is restricted.

OM4 Minizip multimode fibre optic patch leads are backwards compatible with OM3.

All assemblies are fully tested during manufacturing and are supplied with test results.

OM4 Minizip multimode patch leads are supplied with a strain relief boot and a 1.8mm aqua LSOH cable jacket as standard.
