DESCRIPTION:

UK Vertical power distributions units (PDU's) provide reliable power distribution from a mains supply or uninterruptable power supply (UPS). Vertical mounting to the rear of a rack/cabinet gives a 0u fitment, meaning that rack space is left available for critical rack mount equipment. They are offered with outlet counts from 4 Way to 16 Way and can be supplied with input connectors to suit your requirements.

SPECIFICATIONS:

Socket: UK BS1363
 Plug: UK (13Amp): BS1363
