Description

The Easy Release Cable Tie is the revolutionary new cable tie from RETYZ™. This *patented* design combines the high strength of nylon zip ties with a newly designed Easy Release head. No more nicked wires and destroyed cables. No more "releasable" zip-ties that are almost impossible to use. You get the best of both worlds with the Easy Release cable tie from RETYZ™.

Easy 3-Step Process - Fast and easy for anyone to use. A simple 3-step process installs, adjusts, and removes RETYZ efficiently.

Step 1: Feed Tail - Feed the tie tail through the opening in the head.
Step 2: Cinch Tight - Cinch tight by pulling the tail.
Step 3: Easy Release - Pinch the tie head and pull to remove.
Finished: Find the next project to reuse your RETYZ™.
