DESCRIPTION

Our 96 Fibre OM3, OM4 & OS2 Loaded LC Quad Fibre Patch Panel comes already pre-configured as a 96 Fibre panel.

The Loaded Fibre Patch Panel has been developed to help save time and money when on site. The panel comes supplied with the adaptors already installed in the front plate and the front plate subsequently mounted on to the panel chassis.

The Panel also come supplied with the 19inch mounting brackets already fitted to the panel chassis so that the panel is ready to be mounted into the rack or cabinet. Cable glands, bunny clips and splice cassettes are also included.

TECHNICAL SPECIFICATION
